Our age cutoff and grade placement policy reflect the most appropriate classification for the social, emotional and academic well-being of students attending RAS. To ensure the most appropriate learning environment for all elementary level students, we only allow exceptions to our age-level grade placement guidelines on a case-by-case basis. Exceptions will be considered when a student is age appropriate for a specific grade level but has already completed that grade level at another American school AND, through the admissions process, proves to be academically, socially and emotionally mature enough for the next grade level.
